BIMIR25-010067	MIR	Issued	10/9/2025	\$9,649.92	Over time, our existing deck has experienced gradual settlement and has sunk a bit. In order to restore the deck to its original level and ensure structural stability, we propose to extend the height of the six existing footings by approximately 12 inches each.	384	030040012	4700 N STONE RD	BETHEL ISLAND

Additionally, several portions of the wood on the attached staircase have weakened due to age and weather exposure. Rather than removing the existing wood, we plan to reinforce it by adding new treated lumber directly onto the existing structural members to enhance strength and safety.

No changes will be make to the overall footprint or layout of the deck or stairs.
