BIT24-010683	T	Issued	1/29/2025	\$7,146,343.00	The project is the replacement of three chillers and their related water pumps within the chiller plant. The chiller work also requires rerouting of piping within the chiller plant, replacement and relocation of the chilled water expansion tank, and installation of a new refrigerant leak detection system. All work will be phased in sequence to allow continuous operation of the facility, in conjunction with the installation of an interim chiller and generator on site. To connect the interim equipment with the building mechanical and electrical systems, permanent connection points will be installed on the exterior of the building.	1	372191022	2500 ALHAMBRA AVE	MARTINEZ
