BIPZ26-002536	PZ	Finald	3/17/2026	\$54,220.34	Utility Gas Line Repair and Replacement: • Customer has a 3" coated galvanized gas line feeding the back buildings. At one junction, it reduces to 1½" to serve the first building, then continues as 2½" to the back building. • The existing line has multiple leaks, allowing gas to escape and water to enter, leaving the utility non-functional. • Proposed plan: Install two 2" poly gas lines from the PG&E meter to each building, each with a separate shutoff. Includes cutting up to 20 linear feet of concrete as needed. • Pipe installation includes a sand bed 2" below and 4" above, plus asphalt removal and repair.	1	002020001	4491 BIXLER RD	BYRON
